ISO / IEC 27002: 2013 INFORMATION SECURITY CONTROLS
IMPLEMENTATION TRAINING

TIME (DAY)	2
TRAINING OPTIONS	General Participation & In-House & Online
LANGUAGE	Turkish, English
COURSE CODE/ ACCREDITATION	A021986 / CPD

COURSE AIM

With the increasing threats of internal and external information security, organizations are increasingly recognizing the importance of applying their best controls to protect their information assets. By implementing and maintaining appropriate controls, organizations become less sensitive to information security breaches and financial and reputational damage they cause.

ISO/IEC 27002: 2013 is an international standard that provides guidelines for best Information Security management practices. These management practices will help your organizations to have confidence in their inter-organizational activities and implement a suitable set of control practices, including policies, processes, organizational structures, and software and hardware functions.
